

WINDOW SILLS WITH "EARS"

MANUFACTURE

Precast waterproof concrete window sills, with drip cap, according to **NF P 98-052**. The white version is waterproof.

For windows longer than 2m, the window sills are made of 2 elements, with a "male-female" joint system. **(Detail 1)**

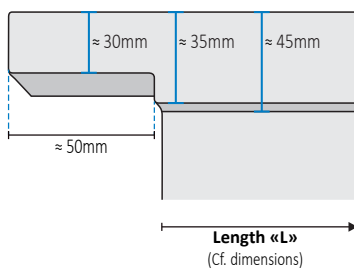

APPLICATION **(Detail 2)**

- Install 2 planks leveled to each side of the opening.
- Fill the formwork with mortar, then install the window sill.
- After the setting of the mortar, take the formwork off and make all the finishings under the window sill, while complying with the acknowledged rules of the art.

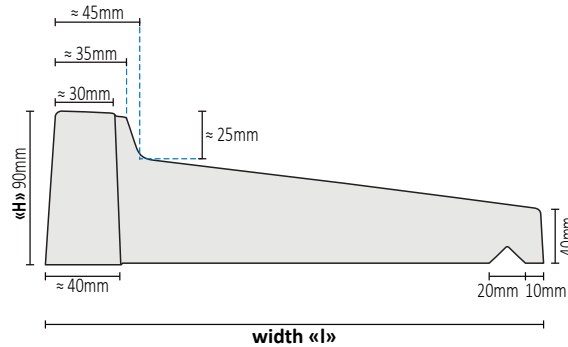

BENEFITS

- Quick and easy installation due to the optimized dimensions.
- Aesthetics: smooth finishing.
- Available colours: white and grey.
